

DOCUMENT SHOWS SECRET AIMS OF LENINE

SEEMS TO HAVE BEEN NO SINCERITY BACK OF LENINE OVERTURES

Alleged Document Was Addressed to Representatives of the Bolshevik Government Abroad and Outlines Its Aims—Entire Program One of Deceit and Camouflage

(By The Associated Press)
NEW YORK, June 2.—Professor Paul T. Milukoff, former minister of foreign affairs in the Russian provisional government, today cabled to the Russian information bureau here the text of a "very confidential" document declared to have been issued by the Bolshevik commissary of foreign affairs, M. Chitcherin, and which is claimed to show the secret aims behind the latest Lenine foreign policy.

This document addressed to representatives of the Bolshevik government abroad and which came into the possession of Professor Milukoff in Paris, calls attention to alliances of world powers which would be regarded as most beneficial to soviet Russian ambitions. Of this the document says:

"The interests of the western powers are so interwoven that it is impossible to forecast the political combinations into which the alliances will finally resolve themselves. We suggest to our missions as worthy of consideration the following combinations:

Suggests Combinations
"British-Japanese as a threat to America; British-German as a threat to France; Italian-Greek as a counter-balance to the policies of England and France in the Near East; Polish-French as a direct threat to Germany; Czech-Romanian as threat to Hungary, etc."

Observing that thru defeating Kolchak, Deniken and Wrangel, Soviet Russia came face to face with "the forces of imperialistic capitalism," the instructions declared that "the future of soviet Russia depends upon a skillful utilization of the present political situation in Europe."

Economic conditions in Europe have become so bad, Chitcherin asserts that neither individual countries nor the whole of Europe will be able to emerge thru peaceful means. His instructions refer to "the idea of a league of nations," as having suffered "utter defeat."

The document abandons all hope of bringing about a class revolution in the west by active propaganda but he sees in chaotic conditions abroad a golden opportunity to realize this ambition by minimizing the real strength of the soviet government until the psychological moment arrives.

His instructions read, "when capitalist diplomats will find themselves compelled to commit a folly and it is our task not to interfere with the commission of that folly. Germany is in need of moral support."

Outlines Ultimate Aims
"We shall furnish that. Germany needs security for her eastern border. That shall be promised her. France wants to see us helpless. England wants to exploit us. We shall grant her every opportunity. We must see that the center of gravity is transferred from us to the west. Let European diplomats break their heads over the solution of problems that cannot be solved. We shall always remain the decisive factor."

"It is not to our benefit that we should be feared and our power exaggerated. Official recognition of our representatives, development of trade relations, gradual dissemination of our propaganda, and the strengthening of our authority among the proletarian masses, these are the aims of our work."

Should circumstances interfere with our activity in the west it will then be necessary to transfer the center of our diplomatic work to the Balkan peninsula and to capture the sphere of influence in the near east."

Chitcherin's alleged document refers to peace with Poland by explaining that annihilation of the Warsaw armies would have forced soviet Russia to have entered the European arena which, if done too early, he thinks would be against the interests of Bolshevism.

"No matter how much the French and German statesmen may wiggle, rattling their swords and yielding at the last moment," Chitcherin concludes, "sooner or later conditions will bring them to a clash, and we must have our hands free."

The document was dated February 6.

VOLSTEAD TELLS PURPOSE OF HIS LATEST MEASURE

Primarily to Prevent the Sale of Beer as Medicine

(By The Associated Press)
WASHINGTON, June 2.—Chairman Volstead of the house judiciary committee, in a report today dealing with his bill to supplement the Volstead act, declared it presented only such essential legislation as was deemed necessary in order to bring about a fair enforcement of national prohibition.

The report said the chief purpose of the bill was to prevent the use of beer and wine as medicine, permitted under an opinion by former Attorney General Palmer.

"The effect of that opinion," it added, "is to take from the commissioner of internal revenue control of the permits and prescriptions and lodge that control in those who would profit by their abuse."

Declaring that evidence showed overwhelmingly that beer never had been recognized as a medicine the report quoted the attorney for the Anheuser-Busch company, Inc., to the effect that if beer was permitted as a medicine, "it would be impossible to enforce the prohibition law."

Liquor Stock Increases
Discussing the provision which would prohibit importation and manufacture of liquor while the present stock holds out, Mr. Volstead said that on January 1, the stock on hand was 40,216,079 gallons, while at the end of March it had been increased by 109,000 gallons.

The report explained that the bill was designed to prevent the manufacture of medicine and kindred preparations which could be used for beverage purposes. The committee held that by requiring the use of alcohol instead of whiskey or wine, there would be less chance of turning out products fit to drink.

The bill, the report showed, would give the attorney general concurrent power with the commissioner to revoke permits, "in the interest of law enforcement."

The bill was reported to the house today by the judiciary committee.

CLOUD BURST CAUSES DAMAGE TO RAILROADS

Bridges on T. P. & W. and Chicago and Alton are Washed Out—Floods Caused by a Cloud Burst at Washington, Ill., which swelled Farm Creek into the proportions of a roaring torrent and threatened to wipe out the suburbs of Urbana and Farmdale tonight. No lives are believed to have been lost.

Scores of families were saved in thrilling rescues and it was only after several hours of work by parties of rescuers that several families were saved after being marooned in their houses. The cloudburst occurred at 6 o'clock. For three hours the water in Farm Creek rose with a rapidity that veteran rivermen declared had not been duplicated in 25 years.

After rising continually for three hours the flood began to gradually recede and it was believed late tonight that all danger had passed.

A bridge owned by the T. P. & W. railroad was washed out, making train service impossible for several hours. It was reported several hundred feet of the Santa Fe railroad tracks were also washed out and nearly 60 acres of farm land were flooded.

Train No. 9, southbound Hummer of the Chicago & Alton, and Train No. 10 northbound Hummer, were derailed thru Springfield on account of the tracks being washed out at Miner, Illinois. The mails off the train will probably be brought to Jacksonville from Roodhouse this morning.

Business Depression Has Definitely Passed

NEW YORK, June 2.—The business depression of 1921 has definitely passed and the financial condition of the country is such now that it should inspire only optimism, W. P. G. Harding, governor of the federal reserve board declared today in an address before the annual meeting of the National Automobile Chamber of Commerce.

The financial situation of the federal reserve system is stronger than it ever has been and banks are anxious to lend money to legitimate business, Governor Harding said.

The public has a lot of buying power left. We want to get the people out of the idea that prices are going lower and lower," he asserted. "We should get some stability into the situation buying power begets buying power."

The federal reserve banks, the ultimate resource of all member banks and thru them of the public are in a position now better than ever before to extend to all legitimate business assistance needed—they are anxious for business to avail itself of their assistance."

It was brought out at today's session that many motor car and truck companies feeling that the present standard of prices will still continue have priced their products according to the present levels of the market.

Charles Clifton of the Pierce-Arrow Motor Car company, was elected president of the chamber.

HEARINGS ARE CONTINUED ON TINCHER BILL

(By The Associated Press)
WASHINGTON, June 2.—Further testimony on the Tinchin bill to regulate future trading on grain exchanges was heard by the senate agricultural committee.

S. W. Tanter, representing the American farm bureau federation told the committee that federal legislation alone would correct alleged evils in trading on the exchanges. He said that each time regulatory legislation had been proposed there had been "a temporary house cleaning" of the exchanges, but that the old practices had been resumed later.

F. M. Crosby, a Minneapolis miller, and A. R. Templeton, of the Milwaukee exchange, opposed granting of wide discretionary powers to the secretary of agriculture. Mr. Crosby contended that restriction of the trading in futures also was had in that it would limit the absorbing powers of the grain market and compel producers to accept lower prices if forced to sell immediately after harvest when the run of grain was heavy.

BUSINESS AGENT OF PAINTER'S UNION INDICTED

Grand Jury Returns True Bill on Charge of Conspiracy

(By The Associated Press)
CHICAGO, June 2.—A true bill against a business agent of the Painters' Union was returned today by the grand jury which has been considering evidence of grafting by labor union legislative committee.

The true bill charged conspiracy to extort money and charged the collection of \$1,000 from officials of a hotel company during the building of an addition. The bill was voted after officials had submitted their books to the grand jury.

Assistant State's Attorney Gorman said the grand jury would soon take action against several brick dealers and manufacturers accused of an illegal combination to control prices.

CHARGED WITH EXTORTING MONEY

Chicago, June 2.—Extortion of money from thousands of applicants for nationalization papers in return for "fixing them up" was charged against Edward Saepfen, former clerk in the record bureau office of the Cook county circuit court, arrested today in connection with an alleged conspiracy said to have been carried on for years. A warrant also was issued for Herman Baggett, a clerk in the same court.

Four others are sought. It is charged that applicants for citizenship papers were told that the process was difficult but that if they would go to Saepfen, he "would fix them up for \$25."

EXPECTS LITTLE TO RESULT FROM FORMAL INQUIRY

Oklahoma Governor Believes State Should Investigate Riot

(By The Associated Press)
TULSA, Okla., June 2.—Announcement that a formal grand jury investigation of the rioting and incendiarism Tuesday night and yesterday morning which have resulted in the deaths of nine white men and 21 negroes and property losses estimated at \$1,500,000 will begin June 8, and that Tulsa business men will rebuild the square mile of negro residence district devastated, came almost simultaneously late today. Earlier before his departure for Oklahoma City, Governor Robertson urged upon District Judge Biddison of Tulsa county the necessity of a state investigation.

The governor expressed doubt that any good would result from the inquiry. An executive committee of seven appointed at a meeting of fifty prominent Tulsans this morning after promise of immediate relief for the thousands of destitute refugees had been made, announced the committee would undertake first to alleviate the miseries of the negroes rendered homeless and then would re-build the district.

Will Ask Subscription.
A subscription of \$500,000 will be asked, it was announced, and the homes actually owned by the negroes will be reconstructed. No attempt will be made by the committee to rebuild the business buildings, many of which were owned by white persons, or homes which were rented, members said.

The committee of seven also voted to employ immediately as extra policemen, 50 members of the American Legion. A sum for their pay for thirty days was appropriated.

Speakers, talking in plain terms laid the cause for the rioting and torching to the failure of the city and county police officers to function, with an apathetic attitude toward lawlessness and lax law enforcement by the citizens as a contributing factor.

Thirteen bodies of negroes were buried in the city cemetery. The act was without ceremony it being said that feeling possibly might flare up if the burial were attended by any ostentation.

With the death list fixed tonight at 30, it was regarded as possible that the dead might be increased further within the next few days, as a number of the approximately 300 wounded were believed to have injuries which may prove fatal.

Failure of the first high estimate of the number killed to stand up was accounted for by the fact that nobody was found in a comprehensive search of the devastated district today. It had been believed, according to local officials that many negroes were shot to death and their bodies buried as their homes were fired.

CITY REGAINS NORMALCY

Tulsa tonight had regained its normal appearance, the regular policemen patrolling the downtown district. Martial law declared yesterday was relaxed sufficiently to permit business houses and theaters to operate as usual.

About 200 of the Oklahoma National Guardsmen sent here were returned to their home stations tonight, leaving approximately 300 men in control of the city. The men of Adjutant General Barrett that they would not be withdrawn until the state officials are satisfied that county and city officials are capable of coping with any possible renewal of the mob violence.

Tonight hundreds of negroes were cared for at the fair grounds special effort being necessary to protect them from a hard rain that fell all the afternoon and early evening. Several thousand negroes today were released from supervision of the military, given badges inscribed "Police Protection" and sent about their accustomed duties.

Whereabouts tonight of Dick Rowland, 19 year old negro boot-black over whose safety white men and negroes originally clashed was unknown publicly.

The negro was spirited away during the rioting. There is a police charge of assault against him in connection with alleged attentions to a young white woman elevator operator.

HARDING EXPRESSES HOPE OF REPUBLIC OF "HIGH IDEALS"

President Harding in Presenting Diplomas to the Graduating Class at Annapolis Tells Them His Prayer is That They Will Never be Called Into Battle—Denby Also Speaks

(By The Associated Press)
ANNAPOLIS, Md., June 2.—President Harding presented diplomas to the naval academy graduating class today with a prayer that the newly commissioned officers never would be called into battle, but with an admonition that willingness to fight and die for one's country always must remain one of the most potent safeguards to civilization.

Speaking before the midshipmen and thousands of their relatives and friends, the president solemnly reaffirmed his faith in a strong republic but added that he wanted it always a republic of "high ideals."

The most desired of national attainments, he said, would be a medium between the spirit of maintained institutions and the spirit of the crusader.

With his expression of hope that the nation would not again be called to war, Mr. Harding coupled a promise that so long as he remained president no American would be called upon to fire a gun except in a cause in harmony with the American conscience and for which answer could be made to God.

The president's short address was delivered after he had handed each of the 260 graduating midshipmen his diploma and had congratulated each one.

Denby Delivers Address
Secretary Denby of the navy department had made the formal commencement address, advising the graduates that their best assets as officers would be the respect and love of their men and counselling them to be truly "officers and gentlemen" and never "snobs."

Secretary Denby was given the graduates by Rear-Admiral Scates, superintendent of the Academy in a farewell talk recounting their successes and praising them as "one of the best bodies of men anywhere."

Accompanied by Mrs. Harding the president motored here from Washington.

The regiment of midshipmen, drawn up in line of battalions on their parade grounds stood at present arms as he passed before them, while a battery boomed the twenty-one gun presidential salute. Mr. and Mrs. Harding went first to the house of Admiral Scates and after the ceremonies were the admiral's luncheon guests before starting the return trip.

JAP GRADUATE PRESENT

Among the distinguished guests on the platform during the commencement program was Admiral Uru of the Japanese navy, a member of the class of 1881 and the only living Japanese graduate. Formal notice of his presence was taken by Secretary Denby, who in beginning his address cordially bid the admiral welcome to American shores once more.

Both Secretary Denby and Admiral Scates officially welcomed the "sweethearts of the graduating class," amid much giggling and handclapping from the feminine contingent. Later President Harding carried the suggestion forward into a eulogy of the part women play in the greater affairs of the world.

"The measure of highest achievement is the measure of noblest manhood," said the president, "and when I say that I mean also the noblest womanhood. Because after all nothing has ever been wrought in this country, never a heroism worth preserving, never a striving for a high ideal that was not somehow inspired by the love of mother, or wife or sweetheart."

The president also took occasion to commend Secretary Denby and to draw from his experience an object lesson for the young midshipmen.

"I was very much interested," he said, "when the secretary made reference to his service as an enlisted man and an officer in the marine corps and as an enlisted man and an officer in the navy. That is why he is secretary of the navy. A man who can get all the viewpoints is the man fitted to lead."

(By The Associated Press)
CHICAGO, June 2.—The typical highwayman is not bold or daring, only weak minded, according to a report today by Dr. William Hickson, head of the psychopathic laboratory of the municipal court.

"Ideas from sensational literature contain an entirely wrong picture of the holdupman," it states.

The report stated that out of six thousand cases it was found necessary to send 2,670 to the psychopathic laboratory and that 15 per cent of those brought into court more than once were mentally defective.

Gov. Small is advocating a law which provides for only one statewide primary in a year. This reform election measure will result in a very considerable saving to the public and will simplify election machinery.

Gov. Harding of the federal reserve bank says that the revival in business is here if people can but be made to understand that the low point of prices has been reached. There is, as Mr. Harding says, a good deal of psychology in the business situation and the failure of people to buy nervously because of their expectation of lower levels has had much to do with the depression of business.

The interest shown by members of the Chamber of Commerce in the preliminary steps last night indicates that the members are expecting to take up the program of work with interest and vigor. It is quite frequently happens that the constitution and by-laws of an organization after preparation by a committee are passed without discussion. Last night genuine interest in the provisions of the constitution and by-laws was manifested and various provisions were freely discussed.

The senate has passed the packers' control bill. This measure has not created the storm of opposition that has been true of some other measures relating to this great industry. The probabilities are that the packers see some form of government supervision is certain, and find the provisions of the proposed law not especially irksome or detrimental to their interests.

Railroad employees, it is said, will enter protest but accept the 12 per cent cut in wages made by the railroad wage board. The officers and members of the organization seem to understand that they would not have the sympathy of the public if they refused to accept the reduction. They know too that public sentiment and support is necessary before any wage controversy can be won.

It's not surprising that Barney Baruch has declined to accept the chairmanship of the U. S. Grain

Growers' corporation. Mr. Baruch has been subjected to so much of criticism thru the public positions he has already held that he has no further liking for such work. He recently characterized the character of his profiteering enormously thru sales of copper while serving on the war munitions board as cruel lies. Certain it is that the man who holds a high public position and escapes having his conduct or motives questioned is rare indeed.

It is safe to say that many a man who is advocating stringent regulations for the board of trade has very little idea of the important part that institution has in the marketing of grain nor any accurate knowledge of the huge bulk of business that passes thru it.

When prices paid a producer are sharply lower by comparison with market conditions of a few months before, it is an easy matter to gain the support of these producers for a program that they think will lead to higher prices for their products. A great deal of the opposition to the board of trade arises from dissatisfaction with prices and conditions which have been in no way caused by the board.

SCHOOL GIRLS' CLOTHES

Discussing "School Girls' Clothes" the Indianapolis News says:

"The executive committee of the Indiana Parent-Teachers' Association may have difficulty in persuading the 27,000 members that its decision relative to uniform school attire for girls should be adopted, but there will be little disposition to question the worth of the effort. The suggested costume for high school girls is a mid-blue blouse, a blue skirt cut to hang halfway between the shoe tops and knees, cotton stockings, and low-heeled shoes. No cosmetics are to be tolerated with the exception of powder. The executive committee's action is timely. Many high school girls dress as if they were ten years older than they are, and on their way to a formal social function instead of to a day's work in school. It is not at all uncommon to see groups of them strolling near their schools looking more like chorus girls in costume than schoolgirls.

"They pluck their eyebrows, rouge their faces, redden their lips, powder heavily, wear thin blouses with little underneath, thin silk stockings and high-heeled shoes. There is such a thing as being too 'practical.' Everything that men have most valued has been, if not an ideal, at least idealized. This being the case, we are justified in expecting that the American people will again be stirred by the old emotion and rally as against the forces that are working against idealism. The lapse, though regrettable, is only temporary. Those who will best serve the country—and the world—who remember most accurately what this nation

FEDERATED CLUBS HELD ANNUAL PICNIC

Morgan County Club Women Enjoy Annual Event on Grounds of New Tuberculosis Sanatorium—Miss Harriet Vittum Heard in Fine Address.

More than 200 women were in attendance at the annual picnic of the Morgan County Federation of Women's clubs, held Thursday at the new tuberculosis sanatorium. This year's picnic was the largest in the history of the federation, and was attended by women from every club in the county.

The club women had the pleasure of listening to an address by Miss Harriet E. Vittum, head resident of Northwestern University settlement in Chicago, whose theme was "Women's Battles of Peace." This was Miss Vittum's second appearance in this city, as she spoke here at a Federation meeting during the war period.

Mrs. W. T. Scott, president of the county federation, was the chairman in charge of the general arrangements for the picnic, and to her is due much credit for the success of the event. Mrs. A. L. Adams was the chairman of the program committee and serving with her were Mrs. Ben Lorton and Mrs. L. B. Turner. Chairman of the domestic committee was Mrs. A. Curry, other members of this committee being a representative from each club in the county.

A business session was held yesterday morning, when reports were made by the precinct and department chairmen, and other matters given attention. At noon a splendid picnic luncheon was served, a delightful musical program being furnished at this time by members of the Mandolin club of Illinois college.

Made Investigation Trip. Following the serving of the luncheon the women made an inspection trip thru the new sanatorium and later assembled for the afternoon session. Rev. M. L. Pontius, president of the Morgan county Anti-tuberculosis society, made a brief address. He related something of the history of the movement which resulted in the founding of the institution and gave a brief outline of what is contemplated by the association for the future.

Miss Vittum, the main speaker of the day, was introduced by Mrs. Scott, the county president. This noted club woman has for the past sixteen years been associated with the Chicago settlement of which she is now the head. The speaker made an earnest appeal to women, the newly enfranchised citizens, to reward the sacrifices of the men and women in France by service. This service, she said, should be given as freely and enthusiastically as was that given during the war period.

It was pointed out by the speaker that women can be of especial service in raising the standard of American homes, working and recreation conditions. The demand there is for sanatoria and for improvement in housing conditions. The fact that Illinois has no housing regulations was deplored, the speaker referring to the fact that the third housing bill met death before the house just recently.

The conservation of food was strongly urged by the speaker, such conservation being necessary in this, the most productive country on the globe, because of the great need existing in other countries.

Touching upon the need for more regulation and supervision in the public school system, Miss Vittum stated that this country is the only one with no restriction of education. She said that statistics show that in mobilization for the army the average man had only a sixth grade education; the lack of proper vocational training was also referred to as one of the great problems faced by educators. The women were reminded of their duties as enfranchised citizens and were told that they now share equally with the men the responsibility of citizenship. Altogether it was a very stirring address and was heard with great interest by the large assembly.

Mrs. J. C. Groat, of Winchester, president of the twentieth district federation, made the closing address of the afternoon. Speaking on behalf of the other counties of the district, Mrs. Groat appealed to Morgan county for aid in solving the problem of caring for tubercular patients. She said that the other counties in the district are anxious for Morgan county to complete its sanatorium in order that they may send their tubercular cases here for treatment and care. This county is the most densely populated of any in the district and is thus financially able to build and maintain a sanatorium. This is not the case in many other counties and in the counties in which a sanatorium is not possible tubercular cases must be sent to some other county for treatment.

At the close of Mrs. Groat's address the formal program came to an end, but some time was spent socially before the club women departed for their homes.

The Personal Side of an Impersonal Service

One of the distinct advantages of a trust company over an individual executor or trustee is the impersonality of its service. It is absolutely disinterested and impartial. No suspicion or jealousy can be aroused by its action. It will not favor one beneficiary over another. It cannot be influenced to depart from an exact execution of the testator's wishes. It never yields to a demand from the heirs for a higher rate of income than is consistent with safety of principal.

And still the service of this company has a personal side which is helpful to all beneficiaries, and especially so to women and minor children. Its officers take a personal interest in them, and themselves handle all important matters which arise in connection with an estate.

BELIEVES JAPAN INTENDS TO GIVE U. S. YAP CABLE

Leading Newspaper Hokie Shimshun Issues Statement

(By The Associated Press)
TOKIO, June 2.—The Hokie Shimshun says today it has reason to believe Japan has proposed to give the United States the Yap-Guam cable, with the privilege of control of the line to the island of Yap.

While Japan intends to keep the mandate the newspaper says she considers this to be virtual internationalization.

The parliamentary committee of the opposition party published a statement today saying that Viscount Uchida, the foreign minister in receiving the committee was asked if Japan should insist on the Yap mandate. He replied:

"Of course Japan will adhere to the mandate but we are negotiating with Washington concerning the disposition of the Yap cables."

He further said that the time for the evacuation of Siberia had not arrived.

WILL CUT RENTS IN MILWAUKEE
Milwaukee, Wis., June 2.—Rents in Milwaukee will be cut 10 per cent before Sept. 1, W. D. Harper, city building inspector said today.

Building is from 300 to 400 per cent greater than in any year since 1916, he declared, adding that architects are favoring the construction of duplex flats. These factors, Mr. Harper believes, will bring about the drop in rents.

Man Who Posed as Relative of President is Sentenced

By Associated Press.
CHICAGO, June 2.—Everett Harding, self-styled cousin of President Harding, was sentenced to fifteen months in the federal penitentiary at Leavenworth by Federal Judge K. M. Landis after he had pleaded guilty to a charge of impersonating a federal officer.

How "Cousin" Everett Harding strolled into the offices of experienced business men, and, by the magic of a name, a supposed relationship and an imaginary job, got the attentions and credits ordinarily given statesmen was told by witnesses.

In one case according to the evidence he promised a city ticket agent a job on the interstate commerce commission.

Following the election of President Harding, "Cousin" Everett went to the inauguration ceremony in a private car with several business men and politicians and by his sister, Pearl, who became known as "the white house baby."

It was charged that Harding represented that he was to become confidential or assistant secretary to the president.

PREDICT CURE OF LEPROSY PATIENTS

Say That Sixty Five Per Cent of Cases on Island of Molokai Will Be Cured in Next Two Years.

Honolulu, T. H., M. (By Associated Press)—Sixty five per cent of the chronic cases of leprosy in the Kalaupapa leper colony, Island of Molokai, will be cured within the next two years by the use of the chaulmoogra oil specific prepared by Dr. A. L. Dean, president of the University of Hawaii, and within ten years the famous old leper settlement will be a thing of the past, according to the expressed belief of Dr. W. J. Goodhue, the settlement's resident physician.

Dr. Goodhue and territorial health board officials do not hesitate to say that a number of cases in the colony never will recover, that the disease has gone too far to even be arrested by chaulmoogra oil, and the care of these, it is believed, will necessitate keeping the colony running for another decade. In the meantime, however, it is confidently expected, the majority of cases at Kalaupapa will be cured and discharged within twenty-four months.

Members of the territorial legislature recently visited Molokai, thoroughly inspected the colony and made estimates of improvements to be carried out there.

Altho they may be cured, a number of the older inmates of the settlement always will bear prominently the marks of leprosy's ravages, and for these, who have no interests elsewhere, President Charles Chillingworth of the territorial senate, has suggested setting aside government land on Molokai for farms.

Samuel presided and the suggestions relating to the constitution and by-laws made by committee from the membership were read by Mr. Henley of the American City Bureau. There was some discussion of different sections and altogether there was quite a free expression of opinion.

Afterward on motion of John J. Reeve with a second by J.

Herman, the suggested constitution and by-laws were adopted. In the course of the next day or two the members of the organization will have the opportunity of voting for directors by mail. WILL BE GUESTS OF MEREDOSIA MAYOR

Mr. Berger Invites Officers and Nurses of Passavant Hospital to be His Guests Next Thursday—Excursion On River is Planned.

During six weeks the past winter L. F. Berger, business man and mayor of Meredosia, was a patient at Passavant hospital. Mr. Berger so thoroughly appreciated the kindnesses extended to him during the period of his illness that he has invited the officers and nurses of the hospital to spend the afternoon and evening of June 9 as his guests at Meredosia.

The steamer Verne Swain of Peoria will take the visitors on a trip to the government locks, leaving about 2:15 p. m. and returning at 5 o'clock. While the Passavant hospital people will be guests of Mr. Berger on this trip, a great many other persons are expected to go and the boat company will advertise a special low excursion rate. One of the Sunday schools of Meredosia is expecting to take the members of its classes and other groups will also make this journey, as the Verne Swain is a safe and commodious excursion vessel.

Mr. Berger is planning for a short program to be given under a tent on the public school grounds beginning at 1:30. After the return from the excursion members of the party will carry their lunch baskets to the park for supper, and fried fish will have an important place in the menu.

In addition to officers and nurses of the hospital, Mr. Berger has invited Mayor and Mrs. E. E. Crabtree and representatives of the Courier and the Journal as his guests. It goes without saying that the Jacksonville people who have been invited are looking forward to this picnic event with a great deal of pleasure.

Mayor Berger in addressing his letter of invitation to Miss Verner and others associated with the hospital paraphrased the song, "Illinois," closing with these lines:

"We bid you come to Meredosia, Illinois, Illinois."

By the river gently flowing, Illinois, Illinois.

Bon ton coffee with your lunch, And free fish for all the bunch, From the Passavant hospital, Illinois,

And a fine trip on the river, Illinois."

ELI COMPANY SAYS BUSINESS IS GOOD

Have Built and Shipped 29 Wheels Since Last February—Only Planned to Make 35 This Year—Have Four of Remaining Six Sold Already.

Times may be hard and money hard to get and harder to hold but the American people are spending plenty for amusement according to indications at the Eli plant, for the company is sending out Ferris wheels to almost every state in the Union and have already placed 29 since last February.

Last year was the banner year for the company when they placed 46 wheels, one of them going as far as the Philippines. Owing to the scarcity of materials the company made plans this year to make only 35 wheels, but on May 28th the 29th wheel was shipped and four more are sold leaving but two machines unsold out of the total that was planned for the whole year. However, the company will go right on building wheels for next year.

The company has been building Ferris wheels since 1906 and in that time have manufactured a total of 265. Number 265 will be shipped to Ocean Park, Calif., next Tuesday.

Two sizes of wheels are made one with a radius of 40 feet and three inches, designed for traveling amusement companies and one with a radius of 45 feet and three inches designed for parks.

It has been found by the traveling companies that very few automobile mechanics in the country understand the one cylinder engine and therefore the company is now furnishing a four cylinder engine with the wheels. These engines are the only part of the complete wheel which is not made in the local plant. They are mounted on a patented truck.

Besides the wheel the company sells automatic organs, one of which is set up in the plant and can be heard for blocks around when the employees are showing it. They also manufacture a mounted lighting plant for amusement companies. This is a twenty kilowatt plant which will light 1,000 20-watt lamps.

FOREIGN WAR VETS WILL HAVE OUTING

Expect to Take Trip to River Saturday Night.

The members of the Harrison A. Dickson Post No. 503, Veterans of the Foreign Wars and their non-member friends are planning a trip to the Illinois river. They will leave the corner of South Main street and Morton avenue at 8 p. m. Saturday in cars and request that those having cars or trucks call Murvin Ator, Bell phone.

Sunday morning a hired bugler will blow reveille at 6:05, and it will be the privilege of the first man up to kill him, according to the notice.

There used to be a popular song in the army that began: "Someday I'm going to murder the bugler."

Some day you're going to find him dead;
I'll amputate his reveille
And step upon it heavily
And spend the rest of my life in bed."

Sunday morning will be the first chance most of the members will have had to carry out this threat that they so earnestly made two years ago, but we predict that the bugler will not be bothered, will he even get the cook up?

HIS TROUBLE OF 20 YEARS ENDED

Springfield Man Gains Eighteen Pounds Taking Tanlac and is Now Well and Strong.

"I have gotten rid of a case of rheumatism that had bothered me for twenty years, and I have picked up eighteen pounds in weight besides, all on just four bottles of Tanlac." This remarkable statement was made by Ludwig W. Fisher, well-known coal miner who lives at 530 North Fifth St., Springfield, Ill.

"I have been a coal miner for thirty-three years now," he continued, "and for more than half that time I suffered from an awful case of rheumatism. My whole body ached and at times I didn't think I could stand the pain any longer."

"Then last November my right knee and leg got worse and pained me day and night. My knee swelled up and got stiff, and the muscles were so sore I could hardly bear to touch them. My knee hurt so bad in walking that I had to stop every little while and sit down."

"In damp weather I thought it would set me wild. My knee ached all day and all night and I hardly knew what sleep was. My appetite failed me. I went down considerably in weight, and things looked about as gloomy to me as they could."

"I don't believe anybody can say Tanlac has done them more good than it has me. It brought me right out, the pains eased up and in six weeks I was feeling like a new man."

"I haven't a pain in my body now and I believe the rheumatism has left me for good, for I never feel a trace of it. My appetite is great and I have gained back all my lost weight and more too. I sleep like a log and can dig as much coal as I used to years ago."

Tanlac is sold in Jacksonville by Shreve's Drug Store and all leading druggists.—Adv.

DEMPSEY KNOCKED OUT WEDNESDAY

Was in Baseball Game, However, When He Essayed Pitching—Has Gone Back to 200 Pound Mark Since Lay Off.

Atlantic City, N. J., June 2.—Jack Dempsey the world's heavyweight champion was knocked out today.

Dempsey took the count on the baseball diamond back of his training camp when he essayed to pitch for a mixed team of sparring partners and newspapermen and a team composed of theatrical stars. The actors pounded Dempsey's offerings to all corners of the lot getting nine runs in the first inning. The newspapermen and sparring partners finally won, 38 to 11 in eight innings after Dempsey was knocked out.

When Jack Kearns, his manager, returned from New York and found Dempsey tearing around the bases he quickly called the champion out of the game because of the danger of spraining an ankle or injuring his hands. Dempsey was chased to the shower bath and spent the remainder of the afternoon at a massage.

Playing baseball was the only

exercise the champion undertook today. After another day of rest Dempsey will resume his training grind on Saturday with the prospect that it will be continued until the finish without interruption. As a result of his layoff the champion has built himself up to the 200 pound mark and he is eager to get into his gymnasium clothes for another session with the gloves.

FALSE ECONOMY ON TWINE

E. W. Lehmann, farm engineer at Missouri Agricultural college, gives the following advice to farmers:

"Good binder twine will mean a great saving at harvest time. Poor quality twine results in inefficient operation and loss of time. Only guaranteed twine should be secured; guaranteed as to strength, uniformity, length per pound and evenness. The slight saving in the cost of an inferior twine is not enough to justify its purchase. Only a few dollars will be saved on the purchase price of twine, while a good many dollars may be lost in grain and in time at harvest."

FIRE THREATENS WHITE HALL BUSINESS CLOCK

Grange Block Threatened by Fire Tuesday Evening—Citizens Make Booster Tour in Interest of Non-Partisan Judicial Ticket—Other News.

White Hall, June 1.—Grange block, the big business building at the corner of Main and Sherman streets, was the scene of fire fighting Tuesday night shortly after nine o'clock, when a blaze was discovered in the office room occupied by R. C. Boehm on the second story of the north part of the building. The blaze had gained such headway that the chemical apparatus would not handle it, and waters were used in such quantity that the entire north half of structure was given a thorough drenching. This building was undergoing an overhauling, and the work of plastering and papering had been completed throughout the portion thus damaged, and all this work is ruined. Water poured down the Main street stairway in a torrent and the meat shop of A. D. McMahon & Son and the ice cream parlor of Staples & Thompson were also flooded, but the contents and fixtures of both stores were saved from damage. The total damage will not exceed \$1,000.

E. C. Boehm has been down from Peoria for the past few days.

J. E. Symons and family motored down from Roodhouse Tuesday.

A booster tour of Greene county left Roodhouse and White Hall this morning, being augmented

Jones, E. S. Smith and Frank Burton. From Carrollton the booster tour embraced Eldred, Grenfield, Rockbridge, Athensville and other points.

Another reason is—it is sold at a moderate price—you save when you buy it.

In one, the Deltor combines—

- 1 A Guide that Saves 50c to \$10 on Materials
NOT one layout chart for a single size and width, but a separate chart for every size, and every width of suitable material—laid out by experts—always the right way of the weave—to use every inch of fabric, and to save you from 50c to \$10 on materials alone!
- 2 A New "Putting-Together" Picture-Guide
EACH step in putting together that an expert would take—pictured so simply, explained so clearly, that all you have to do is to follow with your needle—and you almost magically attain the perfect fit, set and "drape" that say, without words, "Fifth Avenue" or "Paris."
- 3 The Finishing Touches of Paris Itself
EVERY single detail, every tiny touch that gives a garment individuality in the clever hands of the Parisian modiste—imparted to you by instructions that the least skilled of needlewomen can follow—and achieve the unmistakable effect of PARIS!

Call at our Butterick Pattern Department and let us show you what the Deltor means in saving perfection, saving ease—in sewing certainly and Economy!

Fordson Tractor for Cutting Wheat

No doubt it will be hot when it's time to cut wheat, and there's no question about us all having a heart. Why plod away with the poor old horse when you can do it with a Fordson, do it better, do it in one half the time at about one half the cost.

Talk it over with us or call us for demonstration. We want to show you the drive where you can sit on the binder seat and drive the Fordson.

ISSUANCE OF BONDS

Jacksonville, Ill., June 2, 1921. To the Taxpayers of Morgan Co.: On June 6th, we are again called to vote another bond issue for the completion of the tuberculosis sanatorium hospital. If the money spent in this new enterprise had been spent in a businesslike way as they would have spent their own money; the staggering statement made by The Journal of one hundred and five thousand dollars having been spent, and now asking for more, is enough to cause the public to call a halt on such a waste of their money. If we keep voting bond issues on our county and city generations yet unborn will be burdened with indebtedness owing to our folly, and will condemn us to a life of human progress. Those who are fostering this enterprise would have us believe it is being built for the benefit of the sick soldier. Be not deceived, the soldier had nothing to do with the proposition, it is simply a ruse to get votes to use the name "soldiers" to hoodwink the public who are staggering under taxation is unpartisan and un-American. We understand the contractor is being paid two hundred dollars a month extra for superintending his own contract—such wasting of funds should be considered by every voter and should stimulate their contempt for such methods as to cause them to be active and get out and vote on election day.

Politics and graft are playing a prominent part in public affairs of today. There are few jobs being let by the public without the presence of the political profiteer. Some of our great financial institutions are eager to see the city and county burdened with taxation that they may speculate on the script. Individually we think the graft and the using of disaster are on a par and both should be consigned to the same penal institution and made associates. We hope the voters of the city and county will begin to realize the unjust taxes that are being heaped upon them and will get out and vote against this bond issue on June sixth.

Some speculative favorites
were intermittently active and
strong. In general representa-
tive stocks again reflected unset-
tled business conditions.

Sales amounted to 585,000
shares.

Call money opened at 7 per
cent, rose to 7 1/2 in the first half
of the session and touched eight
in the last hour when market
prices were most confusing. Banks
attributed the increasing scarcity
to large capital flotations, gov-
ernment withdrawals and reduc-
tion of local reserves by interior
banks.

Factors bearing directly on
market values included a cut in
Pittsburgh prices of wire prod-
ucts and marked concessions in
refined sugars. Columbia Grapha-
phone preferred deferred its divid-
end. Exchange on London for-
feited the better part of its re-
cent rally and all continental
rates fell 5 to 30 points. Inciden-
tally the Bank of England
weekly report disclosed a large
decrease in liability reserves.

WHEAT MARKET HITS HIGH MARK

By Associated Press.

CHICAGO, June 2.—Big export
business and bullish crop esti-
mates lifted the wheat market
today to a new high price record
for the season. Closing quotat-
ions were nervous at 3 1/2 to 3 3/4
net advance, July 1.40 1/2 to 1.40
1.40 1/2. Corn gained 1/4 to 1/2
cents lost 1/4 to 1/2 and provisions
finished unchanged to 20¢ higher.
Seaboard interests were heavy
buyers in the wheat pit, and it
was said that as much as 2,500-
000 bushels would be worked for
export.

Gossip was also current that
exporters at Kansas City were
taking all offerings and were
competing with domestic mills.
Moreover a statement from a
leading authority here indicated a
yield of only 258,000,000 bushels
in six states as against 345,000-
000 bushels suggested by the
government May returns.

In view of the scantiness of
the visible supply and of export-
ers' declines which resulted from
rains were without any lasting
influence as price-making factors
albeit the last dry spot in Kansas
was reported to have been thor-
oly soaked.

The topmost point reached to-
day by the July delivery \$1.41 1/2
showed an advance of about 40¢
a bushel since April.

Corn derived its firmness from
wheat and from word that Hol-
land was a buyer of corn to the
extent of 500,000 bushels. Bet-
ter crop reports tended to ease
the oats market.
